

Delivering Financial Management Transformational Outcomes

PEO DHMS Transformational Organizational Aspirations...

- Become a world-class technology organization
- Accelerate IT improvements
- Achieve Value-Based Portfolio Management
- Attain Enterprise-wide Fiscal Accountability

What Makes Team AMC Different?

1. Ability to maintain current operations at a high level while transforming people, process and technology
2. CFO Academy that delivers executive mentoring along with executive networking

The Challenge: Managing a Portfolio of Portfolios

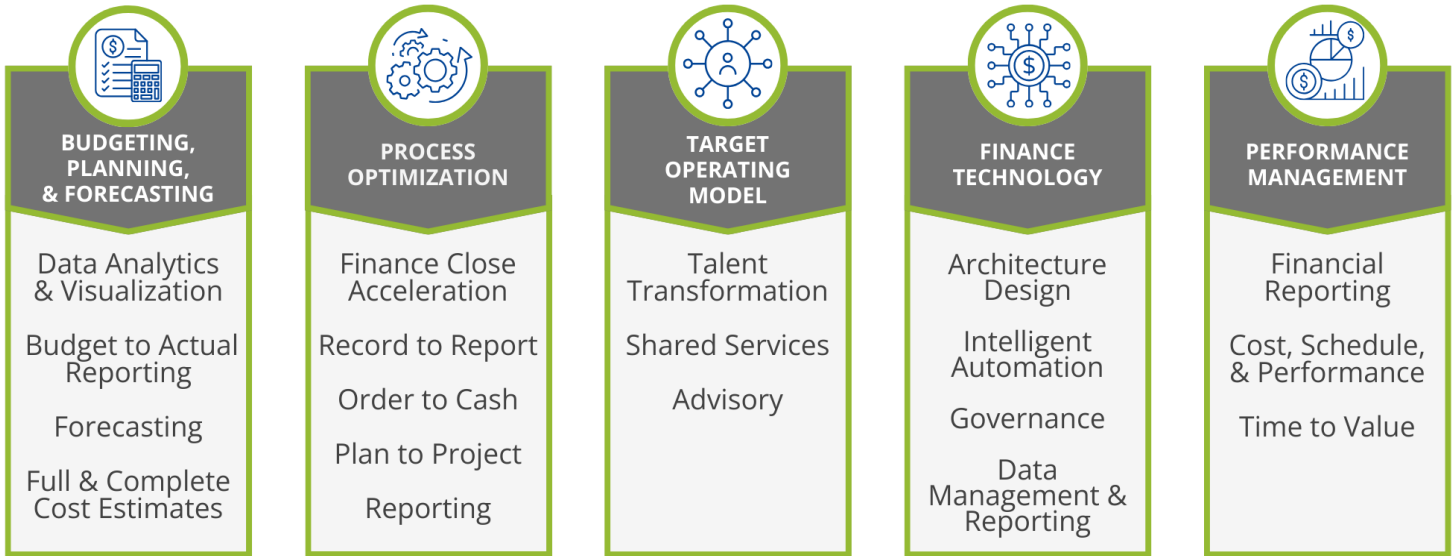

PEO DHMS is the program office managing three major programs of Healthcare Systems procurements, totaling over \$1.5B annually. The Office of the CFO is tasked with managing and optimizing the “value” attained in these complex acquisitions

Team AMC Initiates CFO Transformation

Andrew Morgan Consulting and its primary subcontractor, McKinsey and Company, have instituted a multi-layered Transformation Plan that not only took over the day-to-day activities of financial management (**Financial Planning & Analysis, Budgeting & Execution, and Audit & Compliance**), but have also initiated a 24-month series of transformational activities to convert PEO DHMS into a world-class technology procurement organization that meets all DOD standards for compliance.

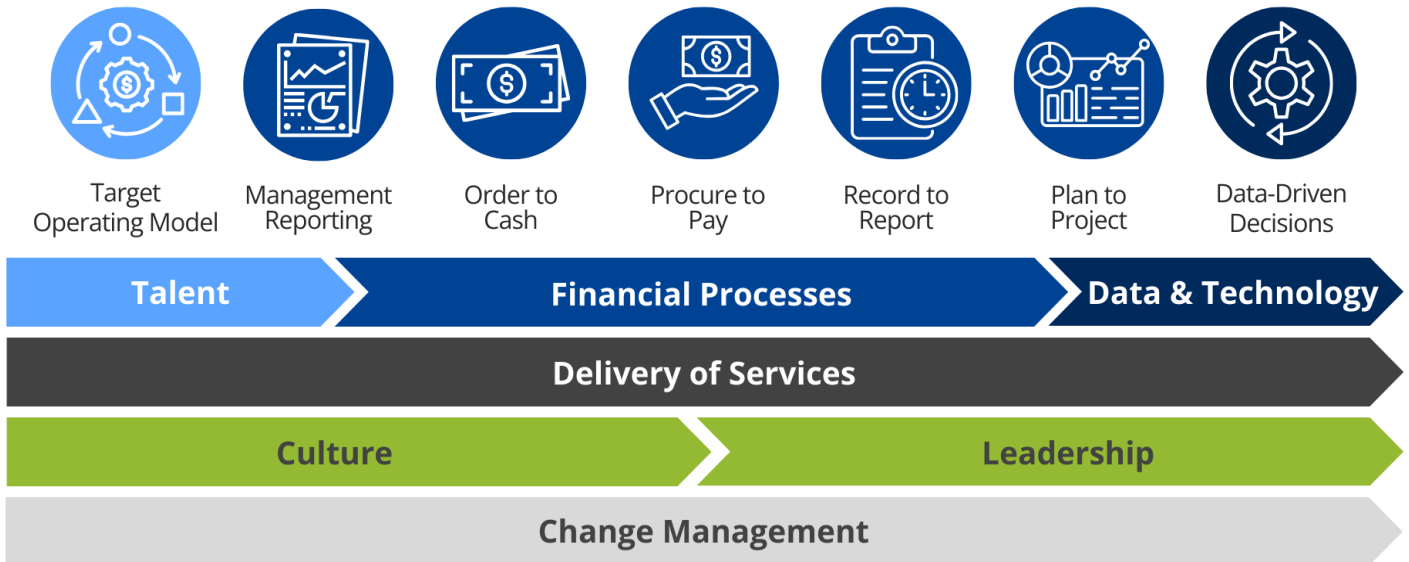

- Talent Transformation**
Bringing the best industry talent to bear on the organizations challenges
- Value-Based Decision Making**
Allow executives, PMOs, and project leaders to make better, faster, more data-driven decisions using value/cost models that work.
- Upskilling of Government Leaders**
Introducing decision-makers to the commercial best practices used by major technology developers
- Raise Project Management Maturity**
Streamline and automate your PM Framework with consistent processes, tools, and reports.

CFO Transformation: Change The Way Finance Works

Transformational Methodology: Adding Value Through Streamlined Processes

At AMC, our transformational methodology revolutionizes CFO organizations by overhauling people, processes, data, and technology. This holistic transformation is geared towards boosting the efficiency, agility, and strategic value of the finance function. Success is measured through tangible outcomes such as cost avoidance, reduced man-hours per month, and value optimization. Our solutions empower key stakeholders with informed insights, facilitate better decision-making, and optimize overall performance.
