CORPORATE OVERVIEW

Commercial and Federal organizations are dealing with converging realities that compromise mission success—from fiscal constraints to the proliferation of raw data, digital access and increased service demands.

Andrew Morgan Consulting (AMC) delivers insightful management consulting services enabled by best practices and technology solutions that automate processes and expose actionable intelligence. Our success comes only when you have experienced transformational change measured by cost avoidance and man hours per month. Our solutions effectively **inform** key people, **enable** better decisions and **optimize** performance. Using our innovative methods, we deliver measurable improvements and insightful analytics.

LEVERAGING EXPERIENCE AND INNOVATION

Our focus comes down to this: we help organizations obtain the highest value from their human capital, organizational, and technical investments, lower cost and achieve better resilience. Whether we are improving your business processes or cloud enabling your data solutions, our experts work with you to address your crucial requirements to determine the most cost effective and efficient path to best practices.

CORPORATE CERTIFICATIONS

CUSTOMER VALUE: VETERANS AFFAIRS (VA)

Andrew Morgan Consulting provides business process automation, data architecture, business intelligence, and decision support engineering to streamline VA's executive decision-making capabilities under the MISSION Act. Leveraging custom-developed and COTS products, AMC SMEs developed a customized data repository in the MS Azure environment, coupled with intelligent data migration processes from over 200 disparate VA data sources. This data was normalized and analyzed to complete over 1800 reports and visualizations utilizing MS PowerBI, allowing VA to make evidenced based decisions.

CUSTOMER VALUE: DEFENSE HEALTH AGENCY (DHA)

AMC experts are working directly with DHA executives, managers, and workforce to develop business process automation "workflows" that greatly enhance the efficiency of the entire enterprise. Incorporating KPIs, Service Level Agreements, SOP's, and leadership directives, AMC workflows ensure proper business practices are followed, with updated process/task status visualized for Agency leaders and business users in a way that is customizable to the individual needs. Forms, documents, and other artifacts that are created by our process automation are securely archived within MS SharePoint repository.

CUSTOMER VALUE: NASA

Andrew Morgan Consulting provides leading edge Mobile application development services to a joint NASA/NOAA program, including Augmented and Virtual Reality (AR/VR) app development, designed to inform external stakeholders and train internal stakeholders. AMC developers utilize multiple app-dev tool sets, including Unity and Swift, to allow users to ensure our NASA customers optimize the benefits of available technologies.

WE ARE ALL ABOUT RESULTS!

AMC focuses on converting *mission challenges* into **optimized solutions** for measurable improvement.
